

## Portents

The face of the morning star is dimmed by speckled marks, the Stygian owl is hooting its sinister omens and ivory statues weep, their voices chanting dirges of misery and doom.

The event is foreshadowed by clashing arms in black clouds and by trumpets awesomely blaring in heaven. The sun's face is gloomy, steeping the uneasy earth in a ghostly pallor.

Shooting stars constantly streak across the sky and drops of blood discharge from the rainclouds. Dirty rust-hued blood spatters the chariot bearing the moon and all hide in fear.

Out in the forum, around men's houses and close to the temples, the night is disturbed by the howling of dogs. This awful furore can be heard in the sacred groves and holy precincts.

Though the streets are haunted by roaming ghosts of the dead and the city is shaken by tremors, these heavenly warnings cannot halt the plot or forestall what fate has decreed.

# Marvel

The surface of the morning star is dazzled by spotlights, the celestial chaffinch sings noisily of joyful marvels and the pearl dancers laugh, their voices chanting hymns of ecstatic joy.

The event is prefigured by the sight of limbs seen in a light haze and by boasts, splendidly rowdy and blissful. The moon's alluring light wraps the assured globe in ethereal rosiness.

Planets dart across the blue vault of heaven and moisture discharges from warm clouds. An iron-willed ardour fills the lover who must now support the moon and live with wonder.

Out in the fields, around women's huts and adjacent to the sanctuaries, he is nonchalant about the whispering sounds that come from urns in the sacred groves and holy precincts.

Though the old streets are hushed by roaming angels of light and the city is cheerful about their vibrations, this heavenly opinion cannot move the plot or alter what fate has decreed.

# Spectacle

The ego of the bright celebrity is dazzled by the limelight, the divine agent chirps of glad tidings and the precious artist giggles, her foreign accent forgetful of grief and anguish.

In retrospect, hiding a segment of ourselves in a sparkly box defeats the dreary timidity of quiet applause. Any sphere's odious disguise can expose a vague orb's intense discomfort.

Serene but insignificant trifles hold fog and give a cool clarity to uncertain shapes, while a grey-toned apathy agitates the atmosphere in effervescence spaces. Some will wonder why.

Out in the hills, front page celebrities run for shelter to nearby havens; all are indifferent to rumours and noises that come from pitchers who have lost the knack of delivering the ball.

If lanes and alleys are muted by roving eyes seeking sight and the art galleries are blithe about ambience, then divine estimation can't move the intrigue or unlock what luck knows.

## Vision

Dawn celebrities, like phantoms startled by fame, follow the heavenly mediator on twitter and hear cheery reports about prize designers and the bizarre presence of their lavish angst.

Characters capable of exposing fragments of others on lustrous stages lessen the tedious coyness of gentle ovation and soon reveal all camouflage as a blurred bubble of uneasiness.

Muffled froth restricts the muddles of searing lucidity dimly perceived in hesitant contours. Appeals excite a fraudulent mood in areas where a light effervescence begs the question.

Superstars from centrefold layouts scurry for asylum to far off ports. They're uninterested in the gossip and clamour of bowlers who've recently found other ways to circulate balls.

They've covered their tracks so that nomadic observers spying the exhibition scenery don't hear the vibes, but gods, during evaluation, discover the trickery and unbolt good fortune.

# Hallucination

The ghost of early stardom is worried by late celebrity, the divine negotiator cheeps about jovial reports and the award-winning stylists chortle; their rich play daft and mischievous.

Performers interpret the wreckage of others in gradual phases. They minimize the tiresome reticence of docile praise and within minutes expose the vague but vast froth of hesitation.

Periodically, tangled triviality curbs jumble by spinning diffident shapes into a sizzling transparency. False attraction animates the setting where blazing pandemonium ensues.

Across the gorge, back-page sportsmen sprint for cover in distant harbours. Impassive to the scandal and uproar coming from the assorted dreamers, they swiftly turn over a new page.

They expose the dark footprints of wandering witnesses spying on their activities and stay aloof from sensations while devout estimates give deceit the lead and uncork young bubbly.

# Mirage

The banshee of premature glory is vexed by tardy celebs, the blissful envoy peeps at fun-loving voyeurs and some celebrated inventors chuckle; their affluent score frilly with ideas.

Travellers identify ancient ruins by brilliant deduction, curtailing the irksome chores of endless digging. Before long they unearth all of the ambiguous signs of leading scepticism.

Like clockwork, snarled up pettiness limits junk by rotating unobtrusive outlines around obvious intelligibility. Phony allure stimulates the pages on which buoyant mayhem arises.

The chasm is never crossed. Front and back stage actors hide in secluded ports where the deadpan tittle-tattle comes from a variety of visionaries who are still looking for dry land.

They uncover the new imprints of peripatetic bystanders who've been scouting for proof of an attachment to uproar. One staunch believer prays for a lottery win and pops a few corks.

# Fantasy

The harpies of impulsive grandeur are angry with the latecomers, the tranquil herald peers at frivolous on-lookers and infamous authors linger, their rich libretti awaiting illustrations.

Domestics, dusting antiques with luminous presumption, put an end to the vexing task of incessant cleaning. Soon they bring to light all the baffling and diverse symbols of doubt.

Without a hitch, blocked stinginess is on the move because the repeated arrogance of some lines improves clarity. The sham magnetism fuels a new opportunity for upbeat anarchy.

The gulf is over lubricated. On the flipside, visitors visit playhouses in private dockyards where the pokerfaced gossip mongers talk to prophets who are still looking for a wet nurse.

They can't expose the numerous pockmarks of the rootless eyewitnesses who scrutinize the deeds that generated bedlam. A handful of loyal devotees demand praise and get drunk.

## Whimsy

The sirens of impetuous opulence are irritated with laggards, the composed couriers gaze at perky viewers and legendary dramatists snort, their tense manuscripts still lacking pictures.

Art restorers, copying historic works with a radiant hypothesis, complete the vexing task of constant maintenance. Rapidly they show how daylight exposes baffling reservations.

Inherent miserliness is efficiently removed by exposing the recurring conceit of old strokes. This enhances precision and the bogus pull of fresh tones feeds the prospect of rebellion.

The vacuum is well greased on both sides for guests who stopover at speakeasies scattered along concealed waterfronts. Telltale signs show greedy clairvoyants are undernourished.

They can't picture the plentiful blemishes that cover the itinerant observers who analyse the brush marks and inspire disorder. A few loyal aficionados stipulate acclamation for sobriety.

## Daydream

The ad-men of reckless luxury are fractious  
with dawdlers, the serene dispatch riders gape  
at animated witnesses and fêted painters sniff,  
their edgy paintings still waiting for the paint.

Copiers, plagiarising modern art works with  
glowing theory, conclude the niggling job of  
unremitting upkeep. Briskly they prove how  
cracks of dawn can explain puzzling success.

Inbuilt tight-fistedness is quickly revealed to  
be inveterate arrogance by the young fogeys.  
This boosts diligence and the spurious fresh  
shades nourish the expectation of revolution.

The vacuity is lubricated on the fringe for the  
callers who stop by jazz clubs strewn along  
the disguised water's edge. Illuminating signs  
show that emaciated psychics are famished.

They conjure up copious imperfections that  
mask the roving onlookers and evaluate the  
smudges that instigate disarray. A few trusty  
admirers specify approbation for moderation.

# Contemplation

Boffins, marketing rash bonuses, are touchy about slackers, the laid-back bikers ogle the vivacious whiteness and eminent illustrators sob, their empty drawings delayed by the ink.

Mimics steal contemporary minimalism with lustrous guesses and finish the trivial trade of chronic accumulation. Neatly they verify how fissures of dawn justify mysterious victory.

Integral prudence is instantly publicized as incurable haughtiness by juvenile diehards. This heightens trade and with illegitimacy it cultivates an anticipation of insurrection.

The blankness is smeared with marks. While tassel-clad troupes pop into venues lining the oblique shoreline, helpful cryptograms show how some could shrink extrasensory desires.

They juggle the bountiful defects hiding the faults of drifting art critics while assessing the splodges that sparked the fiasco. Trustworthy lovers itemize their esteem for self-discipline.

# Meditation

Gratuitous marks make the promotion experts prickly. The imperturbable dispatch riders eye up the spirited pastiness of celebrated artwork and declare that so much grey causes tension.

Copycats nick fashionable simplicity, make glossy conjectures and end trifling deals with unremitting growth. They nattily validate the clefts of sun-up to excuse the weird triumphs.

Vital caution is immediately broadcast as fatal superiority by adolescent intransigents. This reinforces trafficking while fraudulent shades foster a taste for mutiny and bated breath.

The emptiness is smudged by rubbing it with frills. The intention to take vacations in clubs along the beach fails and the secret codes are suspected. Many blame their telepathic needs.

They tackle the abundant blemishes that veil the blunders of itinerant reviewers and gauge the dribbles that ignited the debacle. Reliable groupies express their regard for willpower.

## Rumination

Wanton gestures make the supporting signals spiky and calm communications give a nod to the feisty rosiness of our notable installations. Both proclaim cloudy dyes put them on edge.

Impressionists pinch the trendy unfussiness of cultured assumptions and halt the advances of incessant progress. They smartly confirm that the gaps in daylight produced eerie visions.

Urgent care is to be televised and the terminal dominance of teenage activists fortifies this bartering spirit. Suddenly the deceitful gloom initiates a liking for riots and all gasp for air.

The barrenness is distorted by abrasive additions, like calls of premeditated theft by those from gangs across the estates. Coded memos are blamed rather than telekinetic dexterity.

Battling with the many blotches that cloak the gaffes of roaming reporters, they estimate the leaks that exploded the calamity. The upright politicians express an appreciation of resolve.

## Cogitation

Wilful motions sharpen partisan gestures and quiet communiqués buoy up the spirited glow of prominent technologies. By proclaiming their gloomy pigments they cause the creeps.

Impersonators pilfer the hip minimalism of urbane hypothesis and freeze the spread of nonstop expansion. They verify the holes in nightlights that caused paranormal dreams.

Critical attention is relayed as the incurable ascendancy of childlike militants. The move buttresses negotiations, but fraudulent gloom instigates a partiality for huffing and puffing.

Empty areas, reshaped by inspired tentacles, indicate that planned spontaneity by the artist when working from his apartment could be simple oblique processes of psychic dexterity.

Encountering the splodges that shroud the faux pas of roving brush marks, he views the trickles that seep onto the canvass as direct expressions of positive reception and tenacity.

# Manifestation

Unruly actions hone a sponsor's shrug and his hushed phone call sustains the animated blaze of high-flying know-how. Later he announces that murky tinctures trigger heebie-jeebies.

By aping and pocketing the modish purity of debonair guessing, he congeals the swell of hysterical extensions and nattily predicts that a dig at wax works will entail magical trance.

Key concentration is transmitted as the fatal pre-eminence of innocent radicals. The move protects conciliation, but deceptive obscurity activates a prejudice against wheezing gasps.

The unfilled zones are restructured by superb extras that point to deliberate impulsiveness. Comedians perform these circuitous methods at home to prove a grasp of intuitive agility.

Bumping into dribbles that blanket blunders by hairless brushes, many now regard drops that percolate through the paper as the exact articulation of much enjoyable determination.

## Demonstration

Boisterous deeds sharpen a patron's nod and her soft emails prolong the vibrant inferno of glossy experience. Rapidly she proclaims that all muddy stains make her hair stand on end.

By monkeying around and nicking the chic clarity of suave conjectures, they thicken the bulge of edgy shop windows and uncharitably claim that manikins are paranormal reveries.

Major alarms come from the lethal prestige of gullible fashion houses. They hide reunion, big up illusory fame and galvanize prejudicial attacks on those with windy intakes of breath.

The vacant catwalks, updated with fabulous accessories, allude to the studied impetuosity of clowns who often rehearse in habitats that assist the zigzag method of innate dexterity.

Designers censor the infamous for releasing howlers in bald sweeps and deem it feasible that all who plummet out of dissertations can argue for a munificent portion of fortitude.

# Revelation

Overexcited arrival whets an aide's appetite for squishy penalties and extends the vital fire of primary cruelty. Motorists claim that grimy windscreen additions set their teeth on edge.

By fooling around and embezzling the trendy lucidity of dashing guesswork, they spear the hump of irascible increase and conjecture that parking fines can inspire absurd delusions.

When a good heart promotes toxic kudos in naive parking attendants, they screen crowds, cause erroneous enigmas and incite harmful waves of critique on gusty inhalations of air.

Inane boroughs are rechecked for remarkable garnishes that hint at designer rashness. The traffic cops, who practise by charging guests on sofas, call it natural deftness not slyness.

When they encounter repression they liberate clangers in blunt flounces and affirm that they come across illegally parked cars quicker than you can say the unbearable quickness of fines.

## Surprise

Rowdy appearances arouse a mate's craving for soft verdicts, expanding critical discharge of prime sympathy. Maintain that encrusted views of potential send you round the bend.

By sleight of hand and a misuse of up to date transparency, suave deductions ensue. Lance the bulge of irritable swell and speculate that decorum arouses mind-blowing apparitions.

A friendly face can inspire innocent status in a green analyst. Simply monitor swoons, root out flawed objections and inflame innocent gestures by a reappraisal of body language.

Study salacious areas and when significant adornments imply an ingenuous indiscretion, try to imagine how seductive they would look on a couch. The innate skill isn't that simple.

Coming across rejection, try for mistakes in incisive stomps. Engage in a series of strokes from illicitly parked hands with the alacrity of the speed of light when taking amphetamines.

# Bombshell

Unexpected arrivals awaken a culprit's thirst for flexible decrees and the need for decisive displays of attention. Intransigent attitudes to budding possibilities drove the couple crazy.

By jiggery-pokery and a utilization of recent lucidity, gracious conclusions follow. They ride the swell of tetchy inflation and consider the immodesty that roused the ghouliness.

An affable smile confirms the gullible status of the callow fellow. He scrutinizes signs of fainting, eradicates unsound excuse and gives naive shrugs when studying the way they sit.

Gazing at the spicy vicinity where noteworthy trimmings suggest candid recklessness, he pictures how enticing they look curled up on the chaise longue. His intrinsic flair is absent.

He hears the refutation, notes the inaccuracies of attempted insights and offers his imaginary blows with tightly clenched fists that are swift but with a touch as light as gossamer wings.

## Disclosure

An unpredictable entrance stirs the old shades who long for adaptable rules and some proof of respect. Intractable viewpoints show who was here longest, but still it maddens them.

With trompe l'oeil and the use of fresh clarity, affable finales are the result. Audiences skate across billowing waves of surly upsurge and enjoy the arrogance that now incites spectres.

Jovial grins verify the susceptible footing of the paint. It pours over actions with giddiness, offers puerile flourishes when commenting on the process and wipes out ramshackle pretext.

Gawping at the piquant surface where striking embellishments suggest outspoken wildness, viewers picture how alluring it is to be curled up like clouds on trousers with built-in flair.

I hear denial and note the flawed attempts at perception, but forget this make-believe that pens are mightier than the sword and accept that they're truly as fluffy as ethereal feathers.

## Exposé

Fickle appearances swirl around traces and eclipse them, the rules having been adapted by painterly recruits who have no reverence. Obdurate attitudes don't stop the onslaught.

Tricks of the eye and innovative ambiguities result in a welcoming climax. Soon spectators skim the puffs and flourishes of curt increase and go for an egotism that whips up the spirit.

Cheery smirks attest to the risky balance of paint or no paint that dances capriciously over the canvas. With trivial fanfares, they remark that this method defeats decrepit red herrings.

Gaping at the zesty plane where eye-catching adornment evokes forthright waywardness, a witness dreams of captivating vapours coiling round new duvets with integral flamboyance.

We refute the notion that these endeavours of acuity are defective and point to the fantasies that markers are grander than the blade. Your reserve is more velvety than waiflike plumes.

## Depiction

Nit-picky show-offs eddy around residues and darken them, the tenets having been modified by pictorial converts who lack astonishment. Stiff-necked mind-sets didn't stop the blitz.

Mischievous pranks and novel haziness end the hospitable pinnacles. Bystanders scan the wisps and poses of brusque additions, adoring the altruism that drums up hectic life-forces.

Optimistic grins confirm that the dicey poise of shade or no shade boogies unpredictably over the hessian with trifling salutes, stating that the technique beats crumbling diversions.

The invigorating facade of over conspicuous enrichment induces frank naughtiness. We all fantasize about charismatic mists wrapping round eiderdowns with an en suite splendour.

Contest the reasons. Challenges to perception are perfectly formed and connect with fancies that suggest these paintings strike us like the cutting edge. Woolly shyness is a dainty trail.

## Portrayal

Fussy bigheads twirl around various dregs to diffuse them. The principles are customized by illustrative adepts who need bewilderment. Pig-headed attitudes won't stop crackdowns.

Roguish jokes and narrative foginess lead to cordial high points. Participants inspect jovial morsels on facades of terse adjuncts and spoil the humanity that mobilizes frantic essences.

Sanguine frowns refute the dubious aplomb of using colour. Colour revels erratically over the sacking, making perky salutations about ambidexterity being a rout of patchy detours.

Bracing smokescreens of prominent upgrades generate evasive impishness. We romanticize the magnetic vapours that swathe hereabouts and in the counterpanes of integral majesty.

Oppose the *raison d'être*. A dispute regarding discernment is absolutely essential, linking, as it does, flights of imagination with the avant-garde. Nebulous bashfulness is a flimsy road.

## Picture

Finicky smart alecks weave assorted residues to scatter them. The personalized philosophy of evocative professionals causes bafflement. Mulish manners won't impede this ambush.

Teasing pranks and fuddled plots escort many affable climaxes. Assistants scrutinize cheery specks that disguise clipped add-ons to cosset civilization and marshal frenetic quintessence.

Upbeat grimaces rebut the hesitant composure of gaudiness. Influence will groove fitfully if surrogate backpackers offer lively signals to nimble attempts at hiding patchy deviations.

The soothing masquerade of famed promoters spawns slippery mischief. We build castles in the air of mesmerising mists that swaddle in the direction of quilts with internal radiance.

Contest the incentive. A wrangle over acumen is exclusively critical, involving a conjunction of daydream and the ultra-modern. Tenuous introversion is an insubstantial thoroughfare.

## Portrait

Fastidious clever clogs entwine a mixture of deposits to help disperse the bespoke beliefs of fragrant specialists who trigger perplexity. Headstrong etiquette can often hamper snares.

Mockery and tomfoolery connive to stupefy the usher's genial peaks. PA's dissect bright and breezy flecks that mask snappy trappings to indulge society and collect mad tenderness.

Jaunty contortions invalidate the timid calm of garishness. Pressure will tango erratically if deputy rambler offer vivacious hints to lissom maids who're burying erratic deviants.

The gentle subterfuge of illustrious advocates sets off dicey high jinks. Conjure up hypnotic mouthfuls of air that might soon lay siege to a thousand and one nights of domestic sparkle.

Question the impulse. A squabble concerning shrewdness may be life-threatening if it fakes the union between reverie and the futuristic promise from an unconvincing through road.

## Likeness

I'm no faddy know-it-all, adding accretions to diffuse magical principles. I'm no perfumed whiz kid who tries to spawn mystification; a surfeit of decorum always shackles liberation.

Don't scorn mischievous plots and stunt this artist's gracious summit. Don't slice up light-hearted dots to camouflage old paraphernalia or pamper customs to hoard barny affection.

Brisk scowls quash the timorous serenity of modesty. Demands can grumble randomly so let this delegate of art offer spirited traces to odd willowy shapes and arbitrary formations.

The mellow artifice of eminent activists gets risky frivolities going. Summon mesmerizing tastes and captivating melodies to swathe the spark of his conjugal nights forever and a day.

Don't query the itch. Bickering about cunning may be an acute wrangle if it forges a merger between trance and a promise of modernism. Reject such negative and discreditable paths.

## Delineation

No pedantic clever Dick, me, adding deposits to publicize supernatural ideas, no aromatic wunderkind trying to initiate stupefaction. A glut of certainty can manacle emancipation.

Don't belittle roguish stratagem and arrest a player's genial summit. Don't sliver flippant particles to obscure your bits and pieces or cosset habits to amass loopy friendliness.

Vigorous glares squash the reticence of timid repose. Stipulations can whinge erratically so let this envoy of creativity tender feisty tinges to his sinuous outlines and illogical structures.

The calm artfulness of prominent innovators can avoid chancy twaddle. Beckon enthralling flavours and alluring tunes to drape the glow of connubial days until the cows come home.

Don't doubt the tickle. Backbiting and slyness may make a dire tussle if it falsifies the fusion between stupor and the pledge of originality. Discard the pessimistic and shameful conduit.

# Character

No arcane smarty pants, me, accumulating layers to advertise eerie sketches, no pungent genius trying to inspire awe. A superfluity of surety will fetter our longed-for deliverance.

Don't deride playful subterfuge or inhibit this dancer's genial crest. Don't carve up blithe blotches to cover-up irresistible baggage or indulge traditions to stockpile daft fantasies.

Defiant stares flatten the discretion of fearful sleep. Provisos can bellyache forever so let this emissary of ingenuity submit animated drops to his flowing charts and crazy forms.

The cool slyness of major trendsetters shuns dodgy baloney. Bring beguiling essences and tempting harmonies to deck our smouldering days of pleasure; at least once in a blue moon.

Don't distrust scratches. Infighting and guile will cause a grim scuffle if it fiddles the blend between coma and an oath to inventiveness. Abandon your cynical and ignoble streams.

## Disposition

I'm not secretly buoyant; accruing new coats  
and marketing sinister plans. I've no spicy  
intellect to arouse admiration. A complete  
lack of collateral impedes my desired release.

You ridicule my frisky tactics and restrain my  
amiable crown. You prohibit carefree moves,  
mask what you find alluring and lavish care  
on customs that boost your dippy daydreams.

With insolent glares you crush the pleasure of  
my fearless sleep. Your terms chunter forever  
letting me, an ambassador of creativity, weep  
sinuous pearls of vivacious but vacuous tears.

With chilly guile, you blame it on my crooked  
hogwash. You don't proffer an enticing heart  
or lure me with refrains to adorn fiery days of  
bliss, not once, even in a month of Sundays.

You mistrust abandon. Bickering and deceit  
are the bleak companions that swindle your  
mélange of oblivion and a lack of ingenuity.  
Forsake this sardonic and dastardly course.

# Temperament

I'm not furtively afloat; growing a new hide to trade menacing strategies. I've no piquant intelligence to stir approbation. A definite absence of asylum hampers my delivery.

You mock my frolicsome ploys and contain my affable diadem. You forbid light-hearted steps, veil what you find irresistibly tempting and indulge habits that heighten your reveries.

With audacious anger you devastate the bliss of my valiant slumber. Your requisites moan on while I, an envoy of imagination, blubber graceful gems of chirpy but inane snuffles.

With icy cunning, you accuse me of warped humbug. You don't submit a beguiling spirit or tempt me with jingles to gild hot days of ecstasy, not once, even with a harvest moon.

You fear recklessness. Squabbling and sham are the drab cohorts that defraud your brew of unconsciousness and a lack of imagination. Renounce this acerbic and scheming itinerary.

## Personality

I float surreptitiously; developing new pelts to avoid looming catastrophes. I've no incisive acumen that evokes admiration. An explicit dearth of sanctuary will impede my rescue.

I attempt indolent gambits to restrain my affable laurels. I try jocular lines, hide what I find beguiling or enticing and rebuff practices that might yet intensify my flights of fancy.

With serene duplicity, they articulate the fibs of winding pretence. They bestow charismatic chutzpah and cajole with exhortations to paint golden rhapsodies; all this in the sunshine.

Spite and treachery make up the drab militia that fleeces your uproar and inhibits your grasp. Paint can't shrink from chaos; it gladly denies all acerbic and manipulative schemas.

## Guise

Paint circles honestly; fashioning new seeds  
to dodge the expected heartbreak. It has no  
ardent insight to tempt reverence. A clear  
dearth of wellbeing aids its limited restraint.

With listless exercises it attests to your blithe  
grandeur and with droll silhouettes it secretes  
what you find fascinating or enthralling. It'll  
shame rites that seek to swell tours of craving.

Paint splashes with hasty mayhem to maintain  
the bliss of epic fondling. The circumstances  
coax the principles of guesswork and rocket  
over surfaces, shaping spirited commotions.

With placid deception, paint conveys the fake  
lines of snaky posturing. It grants compelling  
nerve and flatters us that we too can paint fair  
symphonies when there is a crescent moon.

Malevolence and perfidy make up the dowdy  
mercenaries that con your hullabaloo and stall  
your grip. Paint can drop from anarchy and it  
willingly opposes controlling representation.

chains and deludes the feral cross-examiners.

of incongruity and with unqualified incentive  
they bind the tongue-tied objective to itself.

down the coordination of clement energy. The  
directories enhance the pointless philosophy  
of opinion and join sense to an unruly racket.

uncivilized carriage of rickety opinion and  
outlines morbid ideas. With a dexterous scam  
it thuds towards an indisposed inauguration.

The shoddy, fly-by-night and tedious judges  
whinge to lead you astray, diminishing your  
word. New renderings pivot on idle unrest,  
and many do away with the pious educators.

# Improvement
